Youth Travel Soccer

Lazers Soccer Club started its youth program in 2000 forming recreational indoor soccer teams. In 2016, Lazers Soccer Club became an official outdoor travel club. In our first year, we had five youth teams and have had as many as seven in a single season.

We are committed to providing the youth in our community an option to play travel soccer in a family-oriented environment with less financial commitment and established, experienced coaches.

We also offer summer camps, private training, indoor soccer and tournament opportunities.

United Premier Soccer League Raleigh/Garner

In August 2019, Lazars Soccer Club entered its first Men's Semi Pro Team into UPSL (www.upslsoccer.com). UPSL, formed in Los Angeles in 2011, provides a competitive platform for players seeking to play at higher levels. Today, the league is the fastest growing in the country, with 300+ teams located throughout the United States. Arranged into geographical conferences, UPSL runs two seasons, the Fall and Spring. Each season the top clubs from every conference meet in a playoff to determine the league champion. The league champion receives a spot to compete in the U.S. Open Cup, the longest running soccer competition in the U.S., against MLS and USL sides.

The Lazars Men's UPSL team supports the Lazars youth club teams by providing additional coaching support and instruction at trainings, camps and try outs.

Our core values ensure youth players are developing their soccer skills while simultaneously training them for life by fostering collaboration and teamwork.
